PROFESSIONAL EXPERIENCE

edmondpoon.com | UX Designer

2023 - Present | Hong Kong
Scope: Product Design | UXUI | Project Delivery

- Lead customer-facing UX/UI across content discovery, subscriptions, live participation, commerce and specialist-service journeys.
- Design UX/UI for CRM and internal business tools across 6+ operational workflows, using consistent information architecture and reusable interaction patterns.
- Own CRM segmentation, campaign strategy and quiz journeys, spanning system and interface design, development coordination, execution and performance review.
- CRM reporting showed approximately 45% year-over-year growth in campaign revenue across the latest 12-month period.
- Lead requirements, stakeholder alignment, cross-functional handoff and launch QA, connecting product decisions with engineering delivery and day-to-day operations.

divit Ltd | User Experience Designer

Aug 2021 - Oct 2023 | Fintech, payments, rewards and e-commerce

- Owned research, information architecture, product flows, prototyping, UI, usability testing and iterative optimisation within a Scrum product team.
- Designed miles conversion across 50+ states, including account linking, recovery, amount, review and confirmation; also contributed to eDDA payment and e-commerce journeys.
- Partnered with stakeholders including Asia Miles and Cathay Pacific, translating commercial and technical constraints into understandable member experiences.
- Led the corporate website revamp from stakeholder workshops and content architecture to WordPress implementation, Hotjar review and analytics-led optimisation.
- Reported outcomes across divit initiatives included 75% more member sign-ups and 20% higher Shop-by-divit traffic.
